

How to Determine Student Last Accessed Date within D2L

Faculty may determine the last accessed date for students within D2L using a variety of methods. There are different areas the instructor may choose to look. The following are some of the most common areas.

The screenshot shows the D2L interface for a 'Blank Sample Course'. The 'Classlist' link in the top navigation bar is highlighted with a red box. Below the navigation bar, the 'Classlist' page is displayed. It includes a search bar, a 'View By' dropdown set to 'User', and a table of students. The 'Last Accessed' column in the table is highlighted with a red box.

Image	Last Name ▲, First Name	Username	Org Defined ID	Role	Last Accessed
			760.51174	Student	Nov 6, 2017 8:06 PM
		ashleyh	760.117124	Student	Sep 14, 2017 12:42 PM
	Schaffer, Autumn ▼	autumns	760.95127	Instructor	Nov 7, 2017 5:51 PM
	Student1, Sample ▼	sample.student1	sample.student1	Student	Nov 7, 2017 5:17 PM
	Student2, Sample ▼	sample.student2	sample.student2	Student	Aug 25, 2017 5:20 PM
	Student3, Sample ▼	sample.student3	sample.student3	Student	Aug 25, 2017 5:13 PM

Option 1: Faculty may navigate to the “Classlist” area of their course and view the “last accessed” date by the student’s name.

This date is the last time the student accessed this particular course (not the D2L system at large). This doesn’t mean that the student did anything in the course. This is just tracking the last time he/she clicked into the course.

Option 2: Faculty may navigate to the tools that they use in the course to determine the last time the student completed an actual activity. The most common tools are: quizzes, discussions, assignments. The instructor may determine which tools are used in the course in order to locate the last time the student completed an activity in the course.

For Discussions: Choose “Discussions” on the navbar and select the name of the discussion. Search for the student’s name to determine the last time that they posted a discussion (you will see the date).

For Assignments: Choose “Assignments” on the navbar and select the name of the assignment. Determine if the student submitted to the assignment area and the date.
