Understanding The Force-Incapacity-Consent Construct

Overview of the Construct

1. Was **force** used by the Respondent to engage in the sexual activity?
2. Was the Complainant **Incapacitated**?
 - a) Did the Respondent know OR
 - b) Should the Respondent have known that the Complainant was incapacitated?
3. What **clear words or actions** by the Complainant gave the Respondent indication that the **sexual activity was mutually agreed upon**?
4. Was the Complainant's consent **withdrawn** during the sexual activity?

Consent

- **Words or actions** that show a **knowing** and **voluntary willingness** to engage in a **mutually agreed upon sexual activity**
- Past consent $\neq$ Present consent
- The scope of consent matters
- Can be invalidated by: force, intimidation, incapacitation, or withdrawal

Force

- Was force used by the Respondent to engage in the sexual activity?
- Because consent must be voluntary (an act of free will) consent cannot be obtained through use of force
- Types of Force to consider:
 - Physical violence -- hitting, restraint, pushing, kicking, etc.
 - Threats -- anything that gets the other person to do something they wouldn't ordinarily have done absent the threat

Force Continued

- **Intimidation** - an implied threat that menaces and/or causes reasonable fear
- **Coercion** – the application of an unreasonable amount of pressure for sexual access
 - Consider:
 - Frequency
 - Intensity
 - Duration
 - Isolation

Force Analysis

- Did the Respondent utilize force or intimidation to engage in the sexual activity with the Complainant?
 - If yes = violation of policy
 - If no = Move on with the analysis

Consent and the Role of Alcohol and Drugs

Incapacitation

- Physical and/or mental inability to make informed, rational judgments
 - Could the Complainant make rational, reasonable decisions ?
 - Could the Complainant appreciate the situation and address it consciously?
- More than mere intoxication or drunkenness

Determining Incapacitation

- Incapacitation is a determination that will be made after the incident in light of all the facts available
- Assessing incapacitation is very fact dependent analysis of the incident in question
- Various forms of incapacity
 - Alcohol or other drugs
 - Mental/cognitive impairment
 - Injury
 - Sleep

Two-Part Incapacitation Analysis

Part One

- Was the Complainant incapacitated?

Subjective analysis based on the facts surrounding the incident

Part Two

- Did the Respondent know of the Complainant's incapacity?
 - Or would a Reasonable Person have known?

Objective analysis based on the facts surrounding the incident

Common Factors that Impact the Effect of Alcohol

- Rate of consumption
- Strength of drink
- Food in the stomach
- Body Weight
- Body Type – body fat percentage
- Gender
- Enzymes, hormones, water in body
- Medications
- Illness & dehydration
- Fatigue
- Caffeine
- Genetics

Possible Signs of Incapacitation

- Lack of control over physical movements
 - Ex. Inability to dress or walk without assistance
- Lack of awareness of circumstances or surroundings
- Inability to communicate coherently
- Vomiting
- Total or intermittent unconsciousness

Respondent's Awareness

- The Respondent [or a Reasonable Person] must have been aware of the Complainant's incapacity
- The Respondent's own intoxication does not negate their obligation to comply with policy standards

Incapacitation Analysis

- If the Complainant was not incapacitated, move on to the 3rd question.
- If the Complainant was incapacitated, but:
 - The Respondent did not know it = analysis fails. Move on to the 3rd question.
 - The Respondent should not have known it = analysis fails. Move on to 3rd question.
- If the Complainant was incapacitated, and:
 - The Respondent actually knew it = violation of policy
 - The Respondent should have known it = violation of policy

Consent

What clear words or actions by the Complainant gave the Respondent permission for the specific sexual activity that took place?

Consent Is...

- Informed (knowing)
- Voluntary (freely given)
- Active (not passive)
- Clear words or actions
- Indicates permission to engage in mutually agreed upon (sexual) activity

Rules to Remember

- No means no, but nothing also means no
Silence and passivity do not equal permission
- To be valid, consent must be given prior to or contemporaneously with the sexual activity
- Consent can be withdrawn at any time

Withdrawal

- Remember consent can be withdrawn at any time
- The person withdrawing consent is expected to clearly communicate with words or actions they are withdrawing consent
- Other person is required to cease sexual activity until consent is regained
