

MEMORANDUM

DATE: January 13, 2026

TO: Dr. Don Green
President
Gordon State College

FROM: Dr. Joanne Ardovini
Provost, Vice President of Academic & Student Affairs
Gordon State College

CC: Dr. Charles Smith
Dean, School of Business & Professional Studies
Gordon State College

Terry Betkowski
SACSCOC Liaison
Gordon State College

Dear President Green:

Please find enclosed the Comprehensive Program Reviews (CPR) for our BA in Interdisciplinary Studies Program conducted during the 2025-2026 academic year. While the final report contains numerous suggestions regarding the program, I direct you to the comprehensive recommendations made by Drs. Smith and Knighton, see below. It is very clear from the CPRs that the Program has multiple recommendations for improvement

1. The committee notes that program productivity is low due to *extremely low* enrollments and a small number of graduates. However, it is important to note that the various curricular concentrations within the degree draw from existing programs; therefore, no additional instructional costs are associated with offering this degree.
2. The committee recommends reducing the degree to a single concentration, and we support this recommendation. As an alternative model, the degree could be structured with 24 hours of upper-level electives forming the core, with the remaining 18 hours selected from existing concentrations or minors offered throughout the college.
3. The stated purpose of the degree is “to assist transfer students with numerous unrelated courses in earning a bachelor’s degree without losing successfully completed coursework.” In that regard, this is a degree that serves an important need at Gordon State College. However, given the very low enrollment numbers (less than 1% of the total GSC student population), it becomes increasingly difficult to justify the degree in its current form. One potential solution would be to more intentionally market the program as a degree designed for students seeking to complete a

bachelor's degree efficiently in order to enter or advance in the workforce. The program could be targeted to working adults and positioned as part of the Fast Forward collection.

Respectfully,

J. Ardovini, Ph.D.

J. Ardovini, Ph.D.

Provost, Vice President for Academic Affairs & Student Affairs

COMPREHENSIVE PROGRAM REVIEW: AY 2020-2024

Project Team: Dr. Ed Whitelock; Dr. Barry Kicklighter; Dr. Brenda Johnson, PROF Caitlin Chapman

Academic Program Name: **Bachelor of Arts Interdisciplinary Studies; Bachelor of Arts Interdisciplinary Studies Communication and Organizations; Bachelor of Arts Interdisciplinary Studies Creative Industry Arts; Bachelor of Arts Interdisciplinary Studies Management; and Bachelor of Arts Interdisciplinary Studies Public Service**

CIP Code: **30.0000**

College or School and Department: **School of Business & Public Service (AY 2025-26)**

Date of Last Internal Review: **First Review**

Outcomes of Previous Program Review (brief narrative statement): **N/A**

Current Date Program Reviewed at the Institution for this report: **AY 2019/20; 2020/21; AY 2021/22; AY 2022/23; and AY 2023/24**

Executive Summary and Memo:

The Bachelor of Arts in Interdisciplinary Studies (BA INDS) was created to assist transfer students with numerous unrelated courses to earn a bachelor's degree without losing successfully completed courses. Concentrations were created in an effort to attract students to the program and to achieve somewhat of a specialization in career areas. The BA INDS was found to be a quality program, meeting Board of Regents requirements in curriculum development and Mission Statement. Students coming into the BA INDS program brought higher SAT/ACT, High School GPA, and Freshman Index scores than required for admission at Gordon State. Students achieved an average GPA of 3.29 while in the program and a graduating GPA of 3.69. Faculty are terminally degreed, enthusiastically engage in their disciplines and professional growth. A viable program, BA INDS leverages existing institutional resources to deliver four Concentrations within the degree. The curriculum is intentionally structured around courses currently offered across multiple academic units. This results in no need for additional faculty and no added program expenditures. Multiple Concentrations provide a flexible, degree-completion pathway that maximizes existing resources and strengthens cross-disciplinary collaboration. However, program productivity did not live up to its quality. While BA INDS students progress and graduate, enrollments are extremely low and the number of graduates miniscule. It is understood that no additional Faculty or institutional investments are required to deliver the program; however, Faculty time and resources are expended in specialized advisement, program management, and assessment. Additionally, the number of Concentrations (4 – 6) within the program demand additional resources in advisement, maintenance, and assessment. It is recommended that if the BA INDS program continues, that Faculty consider consolidating the Concentrations into one, where students complete the BA INDS without specific Concentrations or courses required for that Concentration. This will reduce the

complexity in advisement and program management, as well as simplifying assessment. With only four graduates in the years under review and an average retention rate of 49.4, it appears program outcomes are too little for the institutional time and resources invested.

Quality Summary:

The Bachelor of Arts in Interdisciplinary Studies (BA INDS) was found to be a quality program. The United Nations (2000) defined Quality in education as “Outcomes that encompass knowledge, skills and attitudes, and are linked to national goals for education and positive participation in society.” Quality includes “Content that is reflected in relevant curricula and materials for the acquisition of ... skills” with “outcomes that encompass knowledge, skills and attitudes, and are linked to national goals for education and positive participation in society.” GSC Students identify program quality through high levels of satisfaction with advisors and advisement. Program quality is deduced from *Program Mission Statement, Curriculum, Student Inputs, Student Outputs, and Faculty Outputs*. Program Mission Statement and Curriculum support program quality focuses on providing “students with a flexible, accessible degree program that caters to their specific needs. Curriculum design meets the Board of Regents’ requirements. Faculty offer required courses multiple times and through various modalities for ease in student registration. Incoming SAT / ACT, HS-GPA, and Freshman Index scores for program majors exceed base levels set for full admission at Gordon State. Though Student Output data is minimal, the data available is positive. The average major GPA for the assessment period was 3.29 and the average graduating major GPA for the assessment period was 3.69. *SACS-COC Resource Manual* (2024) concluded, “Sufficiency in faculty resources is critical to the quality and integrity of an institution’s academic programs to support its mission” (CR 6.1). The full-time BA INDS faculty demonstrates a commitment to professional development and excellence in teaching. Most of the BA INDS full-time faculty hold terminal degrees in their field, actively participate in discipline conferences, and regularly submit papers for publication in peer-reviewed academic journals. Based on this evidence, the 2025-26 Academic Assessment Committee deems the BA INDS to be a quality program.

Viability Summary:

Program viability is viewed as the ability of current systems to maintain a separate existence, to ensure sustainability and consistency. Viability requires effectiveness along with critical resources for programs to generate students, capital, and other resources for the institution. The BA INDS program at Gordon State College demonstrated program viability by leveraging existing institutional resources and established degree programs. The curriculum is intentionally structured around courses already offered across multiple academic units, resulting in no need for additional faculty or new program expenditures. This cost-effective model allowed the program to remain fiscally sustainable while maintaining academic rigor and curricular breadth. The BA INDS program supports institutional enrollment and

completion goals by attracting transfer and non-traditional students into upper-division coursework, thereby contributing to course enrollment stability across participating programs. By providing a flexible, degree-completion pathway that maximizes existing resources and strengthens cross-disciplinary collaboration, the BA INDS program remains a viable and strategically valuable academic offering for Gordon State College.

Productivity Summary:

Productivity is defined as “a measure of economic performance that compares the amount of goods and services produced with the amount of inputs used to produce those goods and services.” In analyzing productivity, the focus is on outputs: enrollments, retention, and student completion data. Ideally, productivity (enrollments, retention, and completion rates) improves each year, as this is a key variable in the College’s success, profitability, and ability to thrive. In improving productivity, space and resources are made available for future growth and expansion. While BA INDS students are progressing and graduating, enrollments are extremely low and the number of concentrations too broad. While it is understood that no additional Faculty or institutional investments are required to deliver the program, Faculty time and resources are expended in specialized advisement, program management, and assessment. It is recommended that if the BA INDS program continues, that Faculty consider consolidating the Concentrations into one, where students complete the BA INDS without specific Concentrations or courses required for that Concentration. This will reduce the complexity in advisement and program management, as well as simplifying assessment. With only four graduates in the years under review and an average retention rate of 49.4, it appears program outcomes are too little for the institutional time and resources invested. It is recommended that Faculty consider consolidating the Concentrations into one, where students complete the BA INDS without specific Concentrations or courses required for that Concentration

Mission Statement and Curriculum

Program Mission Statement

A ***Bachelor of Arts in Interdisciplinary Studies*** provides students with a flexible, accessible degree program that caters to their specific needs.

Program Requirements (Data Source D and E)

Institutional Priority (4 credits):

- FIRE 1000 Freshman Introduction to Reasoning Essentials (2 credits)
- COLQ 29XX Colloquium (2 credits)

Mathematics and Quantitative Skills (3-4 credits):

- MATH 1001 Quantitative Skills and Reasoning (3 credits), MATH 1111 College Algebra (3 credits), MATH 1113 Pre-calculus (4 credits), MATH 1401 Elementary Statistics (3 credits), or MATH 1501 Calculus I (4 credits)

Political Science & US History (6 credits):

- POLS 1101, or POLS 1101H American Government (3 credits)
- HIST 2111 American History I, HIST 2111H American History I Honors, HIST 2112 American History II (3 credits)

Arts, Humanities & Ethics (6 credits):

- Group 1 (Choose one course) (3 credits): ARTS 1100 Art Appreciation, ARTS 1101 Survey of Art History I, ARTS 1102 Survey of Art History II; COMM 1100 Introduction to Human Communication, COMM 1110 Fundamentals of Public Speaking, COMM 1500 Introduction to Interpersonal Communication; FREN 1001 Elementary French I, FREN 1002 Elementary French II; HUMN 1500 Introduction to Humanities; MUSC 1100 Music Appreciation; SPAN 1001 Elementary Spanish I, SPAN 1002 Elementary Spanish II, SPAN 1060 Accelerated Elementary Spanish; THEA 1000 Voice and Diction, THEA 1100 Theatre Appreciation
- Group 2 (Choose one course) (3 credits): ENGL 2111 World Literature I, ENGL 2111H World Literature I Honors, ENGL 2112 World Literature II, ENGL 2121 British Literature I, ENGL 2122 British Literature II, ENGL 2131 American Literature I, ENGL 2132 American Literature II, ENGL 2141 African American Literature I, ENGL 2142 African American Literature II; PHIL 2010 Introduction to Philosophy, PHIL 2010H Honors Introduction to Philosophy, PHIL 2020 Introduction to Ethics

Communication in Writing (6 credits)

- ENGL 1101 Composition I (3 credits)
- ENGL 1102 Composition II (3 credits)

Technology, Math, & Sciences (STEM) (11 credits)

- Choose ONE of the following:
 - ASTR 1010K Astronomy of the Solar System (4 credits)
 - BIOL 1107 Principles of Biology I (intended for majors) (4 credits)
 - BIOL 1111K Intro Biology I (4 credits)
 - CHEM 1151K Survey of Chemistry I (4 credits)
 - CHEM 1211K Principles of Chemistry I (Intended for majors) (4 credits)
 - GEOL 1121K Intro Geoscience I: Physical Geology (4 credits)

- o GEOL 1122K Intro Geoscience II: Historical Geology (4 credits)
 - o ISCI 1121K Integrated Science (4 credits)
 - o PHYS 1111K Intro Physics I (4 credits)
- Choose ANY of the above courses or:
 - o ASTR 1020K Stellar and Galactic Astronomy (4 credits)
 - o BIOL 1108 Principles of Biology II (intended for majors) (4 credits)
 - o BIOL 1112 Intro Biology II (4 credits)
 - o CHEM 1152K Survey of Chemistry II (4 credits)
 - o CHEM 1212K Principles of Chemistry II (Intended for majors) (4 credits)
 - o PHYS 1112K Intro Physics II (4 credits)
- Choose ANY of the courses above or:
 - o BIOL 1011 Natural Science (3 credits)
 - o BIOL 1050 Intro to Human Biology (3 credits)
 - o CHEM 2200 Science, Technology, and the Modern World (3 credits)
 - o CSCI 1101 Introduction to Computers and Computer Programming (3 credits)
 - o CSCI 2102 Introduction to Programming: Visual Basic (3 credits)
 - o MATH 1113 Pre-Calculus (4 credits)
 - o MATH 1401 Elementary Statistics (3 credits)
 - o MATH 1501 Calculus I (4 credits)
 - o MATH 1502 Calculus II (4 credits)
 - o PHSC 1011 Physical Science (3 credits)
 - o CHEM 1211K Principles of Chemistry (4 credits)
 - o CHEM 1212K Principles of Chemistry II (4 credits)

Social Sciences (6 credits)

- Choose two courses: ANTH 1102 Introduction to Anthropology; any ECON; any HIST not taken above; PSYC 1101 Introduction to Psychology; SOCI 1101 Introduction to Sociology; or POLS 2201 State and Local Government, POLS 2301 Introduction to Comparative Politics, POLS 2401 Global Issues

Institutional Requirements (4 credits)

- PHED 1001 Health and Wellness for Living; or PHED 1010 Physical Fitness for Life (3 credits)
- Choose one course (1 credit): PHED 1109 Pace walking; PHED 1015 First Aid/CPR; PHED 1101 Jogging; PHED 1103 Weight training; or any PHED 1 credit activity course

Major Foundations (18 credits):

- Six (6) 1000-2000 level Field of Study courses approved by advisor.

B.A. in Interdisciplinary Studies: Curriculum

- Area of Emphasis
 - Choose a minimum of 8 upper-level courses
 - Choose a maximum of 5 lower-level courses
- Area of Support
 - Choose a minimum of 4 upper-level courses
 - Choose a maximum of 2 lower-level courses
- Capstone Course
 - INST 4900, 4910, or approved upper-level elective

**B.A. in Interdisciplinary Studies: Public Services Concentration
Requirements beyond the associates.**

- Required Courses 9 Credit Hours
 - POLS 2201 State and Local Government
 - HUSV 3060 Human Services Agencies and Processes
 - MGNT 3050 Human Resource Management
- Lower-level electives 12 Credit Hours
 - Select up to 4 courses.
 - BUSA 2101 Business Computer Information Systems
 - COMM 1110 Fundamentals of Public Speaking
 - CRJU 1100 Introduction to Criminal Justice
 - CRJU 2100 Introduction to Law Enforcement
 - CRJU 2003 Introduction to Correction
 - CRJU 2005 Introduction to Criminal Investigation
 - CRJU 2010 Introduction to Criminal Law
 - HUSV 2101 Introduction to Human Services
 - PHIL 2020 Introduction to Ethics
 - POLS 2201 State & Local Government
 - PSYC 2103 Introduction to Human Growth and Development
 - SOCI 1160 Introduction to Social Problems
- Upper-level courses 18 Credit Hours
 - Select a minimum of 6 courses,

- COMM 3930 Public Relations
- COMM 3940 Small Group Communication
- COMM 3950 Organizational Communication
- ENGL 3920 Technical Writing
- HUSV 3001 Research Methods in the Social Sciences
- HUSV 3020 Interviewing and Counselling
- HUSV 3080 Social Welfare Policies and Programs
- HUSV 4010 Program Planning, Development, and Evaluation
- HUSV 4030 Legal and Ethical Issues in Human Service
- HUSV 4080 Special Topics in Human Services
- MGNT 3000 Fundamentals of Management
- MGNT 3100 Principles of Marketing
- POLS 3000 Special Topics in Political Science
- PSYC 3020 Interviewing and Counselling
- PSYC 3040 Social Psychology
- PSYC 3060 Organizational Psychology
- SOCI 3045 Poverty
- Capstone Course Approved by Program Coordinator 3 Credit Hours
- Area of Support 18-21 Credit Hours
 - Choose 0-2 lower-level courses in consultation with advisor
 - Choose 4-6 upper-level courses in consultation with advisor

B.A. in Interdisciplinary Studies: Management Concentration

Requirements beyond the associates.

- Required courses 9 Credit Hours
 - ACCT 2101 Principles of Accounting I
 - COMM 1110 Fundamentals of Public Speaking or COMM 1500 Interpersonal Communication
 - MGNT 3000 Principles of Management
- Lower-level courses 9 Credit Hours
 - Select up to 3 courses
 - ACCT 2102 Principles of Accounting II
 - BUSA 1105 Introduction to Business
 - BUSA 2101 Introduction to Business Computer Systems
 - BUSA 2105 Communicating in the Environment of Business

- BUSA 2106 The Environment of Business
- COMM 2200 Introduction to Intercultural Communication
- ECON 2105 Principles of Macroeconomics
- ECON 2106 Principles of Microeconomics
- PHIL 2020 Introduction to Ethics
- Upper-level courses 21 Credit Hours
 - Select a minimum of 7 courses
 - COMM 3100 Argument & Persuasion
 - COMM 3940 Small Group Communication
 - COMM 3950 Organizational Communication
 - ENGL 3920 Technical Writing
 - HUSV 4010 Program Planning, Development, and Evaluation
 - HUSV 4030 Legal and Ethical Issues in Human Services
 - MGNT 3050 Human Resource Management
 - MGNT 3100 Marketing Management
 - MGNT 3200 Financial Management
 - MGNT 3400 Management Information Systems
 - MGNT 3500 Entrepreneurship and Small Business Management
 - MGNT 3600 Managerial Economics
 - MGNT 3700 Personal Financial Planning for Professionals
 - PSYC 3040 Social Psychology
 - PSYC 3060 Organizational Psychology
 - SOCI 3060 Culture and Diversity
- Capstone Course Approved by Program Coordinator 3 Credit Hours
- Area of Support 18-21 Credit Hours
 - Choose 0-2 lower-level courses in consultation with advisor
 - Choose 4-6 upper-level courses in consultation with advisor

BA in Interdisciplinary Studies: Professional Communication & Organization Concentration
Requirements beyond the associates.

- Required courses 6 Credit Hours
 - COMM 2200 Introduction to Intercultural Communication
 - ENGL 3920 Technical Writing
- Lower-level courses 12 Credit Hours
 - Select up to 4 courses

- o BUSA 2101 Introduction to Business Information Systems

 - o Choose 4-6 upper-level courses in consultation with advisor

BA in Interdisciplinary Studies: Creative Industry Arts Concentration

Major Foundations (18 credits):

- Choose two of the following courses: COMM 1100, 1110, 1500, 2100, or 2200 (6 credits)

- Choose two of the following courses: ACCT 2101, 2102; BUSA 1105, 2101, 2105, 2106; ECON 2105, 2106 (6 credits)
- Choose any two 100-2000 level ARTS, ENGL, or THEA (6 credits)

Program Requirements:

- Required Courses (6 credits)
 - INST 2000 Introduction to Project Management
 - INST 3000 Introduction to Creative Industry Arts
- Georgia Film Consortium classes (18 credits)
 - Choose one of the following *Certification Concentrations*:
 - *Film & Television Production Certification Concentration* (Sequence A or B)
 - Sequence A:
 - GFA 1000 Intro to On-Set Film Production
 - GFA 3010 Production Design I
 - GFA 4010 Production Design II
 - Sequence B:
 - GFA 1000 Intro to On-Set Film Production
 - GFA 3020 Motion Picture Set Lighting I
 - GFA 4020 Motion Picture Set Lighting II
 - *Film & Television Post-Production Certification Concentration* (Sequence A or B)
 - Sequence A:
 - GFA 1040 Introduction to Film & Television Post-Production
 - GFA 3040 Introduction to Editing with AVID Media Composer 100
 - GFA 4040 Introduction to Editing with AVID Media Composer 200
 - Sequence B:
 - GFA 1040 Introduction to Film & Television Post-Production
 - GFA 3140 Introduction to Sound Design with AVID Pro Tools 100
 - GFA 4140 Advanced Sound Design with AVID Media Composer 200
 - *Digital Entertainment, Esports, & Game Development Concentration* (Sequence A or B)
 - Sequence A:
 - GFA 1500: Introduction to Digital Entertainment, Esports & Game Development
 - GFA 2510: Event Management for Digital Entertainment & Esports

- GFA 3510: Digital Entertainment and Esports Event Design
- *Sequence B:*
 - GFA 1500: Introduction to Digital Entertainment, Esports & Game Development
 - GFA 2520: Hosting & Casting for Digital Entertainment & Esports
 - GFA 3520: Digital Entertainment & Esports Creative Development
- Creative Arts Electives (12 credits)
 - Choose four courses from list:
 - ARTS 3610 Intro to Computer Graphics
 - ARTS 3620 Art of Storyboarding
 - ARTS 3630 Graphic Design *
 - ENGL 3610 Creative Writing: Fiction
 - ENGL 3620 Creative Writing: Nonfiction
 - ENGL 3630 Creative Writing: Poetry
 - ENGL 3640 Creative Writing: Script Writing
 - THEA 3610 Directing
 - THEA 3268 Scenic Painting
 - THEA 3630 Applied Creative Production
 - *Asterisk indicates a course that will be listed in Academic Catalog for potential offer for majors after Spring 2025.*
- Communication & Management Electives (12 credits)
 - Choose four courses from list:
 - COMM 3930 Public Relations
 - COMM 3940 Small Group Communication
 - COMM 3950 Organizational Communication
 - ENGL 3930 Technical Writing
 - MGNT 3000 Principles of Management
 - MGNT 3050 Human Resources Management
 - MGNT 3100 Marketing Management
 - MGNT 3500 Entrepreneurship and Small Bus. Management
- General Electives (9 credits)
 - Choose any three courses from GSC Academic Catalog (ensuring that a minimum of 39 total degree credits are upper-level)
- Senior Capstone (3 credits)
 - Choose either INST 4900 or INST 4910

Board of Regents' Guidelines for Program (Data Source F)

Academic & Student Affairs Handbook, § 2.3.1.1. Bachelor Degrees

A baccalaureate degree must contain 120 semester hours, including 42 credits of the IMPACTS Core. A baccalaureate degree program must require at least 21 semester hours of upper division courses in the major field and at least 39 semester hours of upper division work overall.

Board of Regents Policy Manual, § 3.8.4. Bachelor Degrees

Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degrees are comprised of general education and designated major of study requirements. Bachelor degrees consist of 120 credit hours and have a coherent program of study. Bachelor degrees are subject to Board of Regents and USG policies on comprehensive program review and all applicable accreditation standards for a distinct program of study. Bachelor degrees beyond 120 credit hours require the approval of the USG chief academic officer.

The Bachelor of Arts Interdisciplinary Studies; Bachelor of Arts Interdisciplinary Studies Communication and Organizations; Bachelor of Arts Interdisciplinary Studies Creative Industry Arts; Bachelor of Arts Interdisciplinary Studies Management; and Bachelor of Arts Interdisciplinary Studies Public Service BA Interdisciplinary Studies meet the degree standards and requirements of the University System of Georgia.

Mission Statement and Curriculum Narrative:

The Gordon State College mission statement stresses “affordable, supportive access to high-quality post-secondary education.” The BA INDS program advances the institution’s access-centered mission by offering a flexible degree program that is aligned to serve the many central Georgians who have started but not completed college degree work. Adult workers in many career fields throughout the region find themselves blocked from advancement by their lack of a baccalaureate degree; the BA INDS program provides an affordable degree option that will work with their prior educational and professional experience to set them on a trajectory of timely, impactful degree completion, enhancing their career advancement and benefitting the broader Georgia economy. Students will benefit from the program’s interdisciplinary coursework, allowing them to identify and customize, in association with an academic advisor, a meaningful combination of coursework and experience to serve the needs of occupations for which the baccalaureate is the requisite qualification. Further, as the requirements of emerging fields can be difficult to predict and may not be sufficiently served by present programs, the BA INDS program will allow students the flexibility to adjust to the changing needs of the labor market.

As an acknowledgement of serving students seeking to enter emerging fields, GSC developed several Concentrations for the program to guide students in their course selection and prepare them for general entry into such field areas as Public Services, Management, Professional Communication, and Creative Industry Arts (with a focus on Georgia’s growing film industry).

In all, this program will further uphold our institutional vision statement: “Gordon State College . . . where students flourish!”

RECOMMENDATIONS:

1. Continue to monitor Mission Statement to ensure alignment with Gordon State College and Board of Regents mission and initiatives
2. Continue to monitor Board of Regent requirements for BA INDS programs and update curriculum as needed.
3. Consider updating the current Mission Statement to address the four core questions
4. Provide a description of the value delivered to students by the program.
5. Since the Concentrations are quite different, it is recommended that a Mission Statement be developed for each area of study.

Number of sections of required courses and electives offered

Comprehensive Program Review: Bachelor of Arts Interdisciplinary Studies

The BA INDS program offers students a wide selection of course topics, aligning with the mission of being a flexible degree program. All of the 25 courses for the **BA INDS – Communication & Organization** track were offered at least once during the five-year review period. 52% of the courses are offered every year. ENGL 3911, 3912, and 3920 are offered in an every-other-year rotation. COMM 2100 was only offered once in AY 2021 and has not been offered since.

The **BA INDS – Creative Industry Arts** track had at least one course offering of each of the 17 courses during the review period. Of concern is that GFA 3040, 3041, and 4040 were only offered once (AY 2022) during the review period.

The **BA INDS – Management** track had at least course offering of each of the 28 courses during the review period, with 90% of all courses having multiple course offerings during each AY. COMM 3930 only had one course offering in 2020. Both ENGL 3920 and HUSV 3060 are offered in an every-other-year rotation.

The **BA INDS – Public Services** track had the most courses (30) and course offerings during the review period. Each of the 30 courses had at least one course offering during the review period, and 83% of courses had multiple course offerings each AY. COMM 3930 only had one course offering in 2020. Both ENGL 3920 and HUSV 3060 are offered in an every-other-year rotation.

Number of Day, Evening, and Online sections offered

Day Classes - Non Online classes with meeting start times prior to 6pm

Evening Classes - Non Online classes with meeting time on or after 6pm

Fully Online Classes - Online classes with instructional method of Fully or Entirely Online

Hybrid/Partially Online Classes - Online classes with instructional method of Hybrid or Partially Online

The BA INDS program offers courses in multiple modalities, including day, evening, online, and hybrid formats, to support diverse student scheduling needs. During the assessment period, the program provided a balance of in-person (437 sections) and online (848 sections) offerings. The higher proportion of online sections reflects the program's mission to serve non-traditional students who require flexible learning options, as well as the fact that many BA INDS courses are shared with fully online degree programs offered by GSC. Over the five-year review period, day courses accounted for an average of 31% of offerings, while online courses comprised an average of 59%. Evening courses represented a limited portion of the schedule,

Comprehensive Program Review: Bachelor of Arts Interdisciplinary Studies

averaging only 2% of total offerings. Among concentrations, the BA INDS Creative Industry Arts degree had the fewest course offerings (92), whereas the BA INDS Management degree had the highest number (461).

Overall, total course offerings declined steadily during the review period, decreasing from 278 sections in AY 2020 to 222 sections in AY 2024, representing a 20% reduction. This trend reflects ongoing adjustments in program delivery and enrollment demand.

Recommendations:

- 1. Investigate cause in decrease of total course offerings.
- 2. Review need for BA INDS Creative Industry Arts degree.
- 3. Increase evening course availability.
- 4. Review course modality offerings to ensure sufficient options for students who benefit from face-to-face or mixed-format instruction.

Mean class size for section enrollments

The enrollment data for **BA INDS - Communications and Organization** courses from 2020 to 2024 show generally strong and sustainable mean class sizes, with many courses enrolling near capacity. Core and frequently offered courses consistently demonstrate steady demand, supporting the program's role in maintaining enrollment stability across shared institutional offerings. While some variability appears in smaller or specialized courses, overall class sizes remain within efficient instructional ranges. These patterns indicate effective course scheduling and continued viability. Several core

and high-demand courses—including COMM 1100, COMM 2100, COMM 3950, MGNT 3000, MGNT 3400, PHIL 2020, and SOCI 3060—consistently demonstrate strong enrollments, often exceeding 80–90% of capacity.

The enrollment data for the **BA INDS - Creative Industry Arts** track from 2020 to 2024 show a pattern of selective but generally strong course demand, particularly in upper-division and management-related course offerings. Core courses such as COMM 3950 and MGNT 3000–3500 consistently enroll near or at capacity across multiple years, indicating sustained student interest and effective course scheduling within the concentration. Of note is that GFA 3140 and GFA 4040 had no enrollment during the year they were offered. INST 2000 also had low enrollment during the years it was offered.

From 2020 to 2024, the **BA INDS – Management** courses exhibited a mix of steady growth and fluctuating enrollments. Most courses were enrolled at or near capacity during the review period. Core business and management courses like MGNT 3050, MGNT 3100, and BUSA 2101 maintained consistently high enrollments, reinforcing their foundational role in the program. COMM 2200 remained low in enrollment despite ample capacity, and INST 4910 saw minimal participation across all years, suggesting potential misalignment with student needs or visibility. Similarly, PSYC 3060 experienced a notable decline from 30 students in 2021 to just 10 in 2024.

The enrollment data for **BA INDS – Public Services** courses from 2020 to 2024 show generally strong and sustainable mean class sizes, with many courses enrolling near capacity. Core and frequently offered courses consistently demonstrate steady demand, supporting the program’s role in maintaining enrollment stability across shared institutional offerings. While some variability appears in smaller or specialized courses, overall class sizes remain within efficient instructional ranges. Courses in Human Services (HUSV) and Psychology (PSYC) consistently attracted strong enrollment while courses like INST 4910 and POLS 3000 consistently showed minimal enrollment. INST 4910 never exceeded two students, and POLS 3000 peaked at just eight in 2020 before disappearing from subsequent years.

Recommendations:

1. Continue to monitor course enrollment trends and enrollment capacities.
2. Investigate causes of the significant drop in enrollment in courses like COMM 3940, COMM 2200, ENGL 3920, INST 2000, INST 4910, GFA 3140, GFA 4040, and PSYC 3000.
3. Evaluate courses offered infrequently (annually or less often) to determine their necessity for degree completion and assess opportunities to substitute with higher-demand or more regularly offered courses where appropriate.
4. Review overall enrollment and course offerings in the BA INDS Creative Arts track.
5. Increase the frequency of high-enrollment courses.

Total enrollments for sections

Average Enrollment Maximums exceeded Enrollments for each of the five years under review, suggesting adequate room for growth. Seats are available for additional students. Despite the pandemic, the AY 2020-21 average Enrollment Maximum exceeded average Enrollment by only 12 percent. In the years following, the space between average Enrollment Maximum and average Enrollment increased annually, reaching 23 percent in AY 2023-24. This is due to average Enrollment declines. Average Enrollments started at 67.64 in AY 2019-20 and declined each year to 52.92 in AY 2023-24, a 21.8 percent decline.

RECOMMENDATIONS:

1. Continue to monitor Enrollments as a percentage of Enrollment Maximums.

2. Review course requirements for the Communications Concentration in the BA INDS program.
3. Some courses are rarely offered and when they are, enrollments are low. Revisit the importance of the course in various majors. If truly critical to the program, allocate resources and efforts to strengthen the enrollment numbers. Courses like COMM 3940 and ENGL 3920 show capacity to fill if offered more often.
4. If Faculty identifies a course that carries ancillary importance to a program, consider removing the course from requirements. COMM 2100, COMM 3930, ENGL 3911, ENGL 3912, ENGL 3920, ENGL 3930, INST 4910, and ITEC 2245 show little capacity to meet Enrollment Maximums.

Total enrollments for sections

The ratio of average Enrollments to Enrollment Maximums for the Creative Industry Arts concentration is significantly lower than ratios of other program concentrations. The five-year review period showed average Enrollments failing to meet 25 percent of average Enrollment Maximums. Ratios ranged from 10.3 percent in AY 2022-23 to a maximum of 23.9 percent in AY 2023-24. The GFA courses appear to be in low demand. The three courses were offered with low or zero enrollments. Since these are USG courses, they cost the College nothing to offer. Other courses also show low enrollment. COMM 3940 surpassed Enrollment Maximum in AY 2020-21. When offered again in AY 2021-22, Enrollment only reached 35.7 percent of Enrollment Maximum. The COMM courses are instructed by part-time faculty due to lack of Faculty retention and recruitment. The three INST courses show low enrollment each time offered. INST 2000 showed an average enrollment of 6.67 students per year. INST 3000 enrollments averaged 7.5 students, and INST 4910 enrollments averaged 1.66 per year. Hardly enough enrollments to justify offering the courses. Likewise, the ENGL 3610 (13.6 per years offered), 3620 (10 per year), 3630 (17 per year), 3640 (15 per year), and 3930 (11 per year) showed low enrollments. The student enrollment in ENGL courses averaged 13.32 or 53.3 percent of Enrollment Maximums.

Total enrollments for sections

The ratio of Enrollment-to-Enrollment Maximum for courses in the Management Concentration is significantly higher than other Concentration courses, as most of these are courses required for the Bachelor of Science in Management & Administration, with its larger student population. Lower producing courses include COMM 2200 with an average of 56.7 percent of Enrollment Maximum, COMM 3940 with an average of 68.3 percent, ENGL 3920 with an average of 77.3 percent, and INST 4910 with a 3-year enrollment of five students. MGN 3700 has not been offered since AY 2019-20 due to Faculty attrition.

Total enrollments for sections

Likewise, the ratio of Enrollment-to-Enrollment Maximum for courses in the Public Service Concentration is significantly higher than other courses, as most of these are courses required for the Bachelor of Science in Human Services, and its much larger student numbers. Lower producing courses include COMM 3930 with an average of 40 percent of Enrollment Maximum, COMM 3940 with an average of 68.3 percent, ENGL 3920 with an average of 77.3 percent, and INST 4910 with a 3-year enrollment of five students. POLS 3000 also shows low Enrollments, at 22.3 percent of Enrollment Maximums.

RECOMMENDATIONS:

1. Continue to monitor the ratio of Enrollments to Enrollment Maximums.
2. Review scheduling policies for all courses, and especially those with low enrollments. Possibly offering the course in a different format or a hybrid schedule might or other option to see if enrollments improve.
3. In current environments with declining Faculty numbers, consider discontinuing low enrollment courses so Faculty can focus on higher enrollment options.

Program Level - Bachelors

The BA INDS was created as an option for two categories of students. The first category included students wishing to complete their degrees at Gordon State College, but whose coursework from other institutions did not meet the requirements of degrees offered at Gordon State College at the time of their enrollment. The second category included students who had taken classes required by a degree offered at GSC but decided not to complete the degree. The BA INDS allowed the student and their academic advisor(s) to create a program of matriculation that would help the student prepare for their future career. This degree was not created with the expectation of meeting a threshold of student enrollment for it to be viable. Therefore, the number of students in the BA INDS is not used by GSC as a criterion to assess its quality.

Average Incoming SAT/ACT for Program Majors

Average Admissions Test Scores of Students in the Program
NOTE: Not all students will have admissions test scores

The SAT/ACT test is optional for admittance to Gordon State. Gordon State College awards final admission status to students applying with a ≥ 2.0 high school GPA in the Required High School Curriculum (RHSC) and less than 3 deficiencies. GSC does use SAT/ACT scores to exempt students from Learning Support placement: ACT English of ≥ 17 or SAT Verbal of ≥ 430 . The average incoming SAT scores for students entering the BA Interdisciplinary Studies

Comprehensive Program Review: Bachelor of Arts Interdisciplinary Studies

program from 2021-2024 was 941.37, exceeding the minimum required admissions standard. Two students enrolled in the degree in the 2020-2021 academic year had an average SAT of 850, lower than the admissions requirement of 860. These students met the high school GPA requirement. Their average SAT score is lower than the average for the program's students in subsequent years and may reasonably be attributed to the pandemic experienced at that time.

Average Incoming GPA for Program Majors

Student Inputs - Average Incoming GPA

Program Title Majr	2019 - 2020		2020 - 2021		2021 - 2022		2022 - 2023		2023 - 2024

BA - Intdisp. Studies Creative Industry Arts							1		2	
BA - Intdisp. Studies Management	1		2	1,990	2		3		2	
BA - Intdisp. Studies Public Service			2	2,308	5	2,444	3	2,476	2	

Average Freshman Index of Students in the Program

NOTE: Not all students will have a freshman index

Gordon State College awards final admission status to students applying with a ≥ 2.0 high school GPA in the Required High School Curriculum (RHSC) and less than 3 deficiencies. Students who do not have a traditional high school GPA (e.g. home school students) may use the Freshman Index (FI) to meet admission standards. GSC requires a Freshman Index of at least 1830. Freshman Index is calculated as: $\text{SAT FI} = (\text{HS GPA} \times 500) + \text{SAT Verbal} + \text{SAT Math}$; $\text{ACT FI} = (\text{HS GPA} \times 500) + (\text{ACT Composite} \times 42) + 88$. The average Freshman Index scores for students in the BA INDS degree during the evaluated period exceeded GSC standards.

Incoming Learning Support Requirements for Program Majors

Program Title Majr	2019 - 2020		2020 - 2021		2021 - 2022		2022 - 2023		2023 - 2024	
	No LS Requirement	Total	LS Requirement	No LS Requirement	Total	LS Requirement	No LS Requirement	Total	LS Requirement	No LS Requirement

BA - Intdisp. Studies Management	1	1	1	1	2	2	2	3	1	1
BA - Intdisp. Studies Public Service				2	2	5	5	3		2

The percentage of students entering the BA INDS program with Learning Support requirements saw a decline over the review years, from 25% (AY 2020-21) to a low of 5% in AY2022-23. In AY 2023-24, the percentage bounced back to 14%. The percentage of students in the BA INDS degree with learning support requirements has remained consistently lower than those of the GSC full-time fall freshmen cohort, year-to-year. The five-year average for incoming BA INDS students requiring Learning Support was 12%.

Student Satisfaction (Data Source A)

Satisfaction Survey

[See Appendix D]

Overall, students communicate satisfaction with the Bachelor of Arts in Interdisciplinary Studies program. Institutional Research administered the Gordon State College *Student Satisfaction with Program Survey* to 27 program students during Fall 2024. Six students responded, making a 22.2% response rate. Unfortunately, this response rate may not be high enough to generalize results program-wide. Most often it is the highly engaged students who respond to surveys. Since most students at Gordon State College share similar demographic and psychographic characteristics, it is assumed that students who elect to participate in the Student Satisfaction Survey are similar to those who declined to participate. Students participated because they had time and like to provide their opinions, not because they are biased toward the survey issue.

Average survey scores ranged from 4.33 to 5.33 with Standard Deviations (“SD”) between 0.52 to 1.05. Overall average of all variables is 4.86 (out of possible 6.0). Highest average satisfactory scores were awarded to the area of advisement, including “My advisor makes it easy to get in touch and set an advisement time,” and “I feel my advisor takes a personal interest in me,” and “My advisor is knowledgeable about course requirements for my major,” all at average 5.33 rating levels (out of possible 6.0). Two of these also had the smallest SD (0.52 and 0.82), pointing to a narrow dispersion in rating scores. Responses were clustered tightly around the mean rather than spread out. No outliers. Respondents agreed and rated high levels of satisfaction with advisors and advisement. From these items we can deduce a strong quality of academic advisors, academic advisement, and the advisement process for BA INDS students.

Of concern is the lowest average score (4.33) given to “I am pleased with the quality of professors in my major.” The SD for the item is also one of the lowest, 0.82. This average response would be similar to a 72 (out of 100) grade. And the low value of the SD suggests respondents reported similar ratings. Since so many Faculty are involved in the BA INDS program, this variable will be difficult to investigate and improve. The minimal satisfaction with Faculty may contribute to the other low scoring variable. The second lowest average score (4.5) was given to “Overall I am satisfied with my experience at Gordon State College.” However, this variable had a SD of 1.05. The larger value of standard deviation indicates the responses are spread over a larger range around the mean. Students reported a wider range of satisfaction with “overall experience with Gordon State College.” Kaufman & Sandilos (2025) writing for the [American Psychological Association](#) concluded, “Improving students' relationships with teachers has important, positive and long-lasting implications for both students' academic and social development.” That “students who have close, positive and supportive relationships with their teachers will attain higher levels of achievement than those students with more conflict in their relationships.” Positive faculty-student relationships work to draw students into the process of learning and prompt their desire to learn.

RECOMMENDATIONS:

1. Continue to monitor Student Satisfaction with Program, administering annually if possible.
2. Identify ways to continue strong satisfaction with program advisement
3. Faculty investigate actions to improve faculty-student relationships.
 - a. Whitlock (2006) suggested faculty engage in the effort to get to know and connect with individual students
 - b. Spangler, Avant, Gazelle & Faldowski (2011) found making the effort to spend time individually with each student, especially those who were “difficult” or “shy” improved positive relationships
 - c. Wentzel (2010) found that enhancing relationships with students and among students improved faculty-student relationships.
 - d. Kaufman & Sandilos (2025) noted that students notice and emulate Faculty interaction style. Students notice whether interaction style is warm and respectful and will incorporate Faculty style in class interactions.

Commented [KB1]: We don't provide data for 27 students in other areas such as GPA.

- e. Kaufman & Sandilos further recommend giving students meaningful feedback that says you care about them and their learning. A grade without feedback is partial communication.
- 4. Consider administering the *Teacher-Student Relationship Inventory* (TSRI, Ang, 2005) or the *Student-Teacher Relationship Scale* (STRS, Pianta, 2001) to establish a baseline for improvements in faculty-student relationship quality. [Here](#) is the *Short-Form Student-Teacher Relationship Scale*.

Faculty supporting program through assignment to required courses.

As an interdisciplinary degree, the BA INDS program includes a larger than normal number of college disciplines, courses, and faculty than the typical degree program. As the chart demonstrates, some disciplines rely more heavily on part-time faculty. The BA INDS program was also designed to be accessible and convenient to non-traditional students who require online course options. Many disciplines rely on part time faculty to staff online courses. The heavy use of part-time faculty may explain the low average score (4.33) given to “I am pleased with the quality of professors in my major” on the Student Satisfaction Survey.

Recommendations:

1. Assess the work product of part-time faculty vs full-time faculty as a possible contributor to the low average score (4.33) given to “I am pleased with the quality of professors in my major” on the Student Satisfaction Survey.
2. Establish a protocol for determining the adequacy of the number of full-time Faculty.
3. Maintain a chart with documentation of appropriate experience and qualifications of Faculty, both full-time and part-time, possibly using the SACS-COC form.
4. Plan and conduct regular and documented evaluations of part-time faculty.

Gordon State College's has traditionally promoted only full-time faculty with a terminal degree, creating a majority faculty body with terminal degrees. Ninety-four of the BA INDS full-time faculty hold terminal degrees. Part-time faculty have a lower average of terminal degrees. Due to the high number of faculty whose degree status is listed as "unknown", it is impossible to comment further on the balance of terminal and non-terminal degree faculty in the program. For future assessments, it is recommended that this data be corrected.

The BA INDS faculty are to be commended for their extensive engagement in the discipline and professional growth opportunities. With 10 peer-reviewed publications, 62 academic conference presentations, 20 papers submitted, 45 articles and chapters reviewed, the BA INDS faculty are probably the most productive on campus.

Program Quality Narrative:

While the University System does not provide a definition of program quality, the United Nations (2000) defined quality in education as “Outcomes that encompass knowledge, skills and attitudes, and are linked to national goals for education and positive participation in society.” Quality includes “Content that is reflected in relevant curricula and materials for the acquisition of ... skills” with “outcomes that encompass knowledge, skills and attitudes, and are linked to national goals for education and positive participation in society.” The BA INDS was found to be a quality program. Assessing

program quality is based on Mission Statement and Curriculum, Student Inputs, Student Outputs, and Faculty Outputs. The Mission Statement and Curriculum Narrative may be viewed on page 8 of this report. Based on the United Nations definition of “quality education” and the above criteria the 2025-26 Assessment Committee finds the BA INDS program to be quality programs.

Student Input indicators include (a) Average incoming SAT/ACT and High School GPA, (b) average Freshman Index scores, (c) the number of students with Learning Support requirements, and the average major and graduating major GPAs. Each Student Inputs indicator points to the quality of the BA INDS program. Each measure exceeded the minimum required standard for program entrance. The low number of students with Learning Support requirements showed no negative impact on program quality.

Results supporting the quality of BA INDS Program Outputs include:

- (a) The availability of major courses, course locations, and the day/time of courses meet GSC students’ definition of program quality. Each year a wide selection of BA INDS required courses and elective courses are offered. The number of sections offered each academic year shows multiple sections of required courses available for students.
- (b) Gordon State requires a High School GPA of ≥ 3.1 , ACT of ≥ 17 , or SAT of 860. The average incoming SAT scores for BA INDS students was 941.37. The average Incoming ACT-Comp scores for BA INDS was 18.6, over the minimum of 17 requirements. Incoming High School GPA averaged 2.85, above the 2.0 minimum.
- (c) During the assessment period, the BA INDS offered a balance of in-person (437) and online (848) sections to meet students’ scheduling requirements. The higher number of online options represented demonstrates that the programs aim to provide course accessibility to non-traditional students.
- (d) Gordon State requires a Freshman Index score of 1830. The average incoming BA INDS Freshman Index was 2407.2, considerably higher than the incoming minimum.
- (e) The percentage of BA INDS incoming students with Learning Support requirements declined in the five-year review period, from 25 percent of students in 2020-2021 to 14 percent in 2023-24. The five-year average of Learning Support students was 12 percent.

Student Output indicators include (a) average student GPA, (b) average graduating GPA, and (c) student feedback on Student Satisfaction Survey.

- (a) The average GPA for BA INDS students for the assessment period is 3.29, well above the “good standing” level defined by Gordon State (2.0).
- (b) Though there is little data available, the average graduating GPA of BA INDS students for the assessment period is 3.69, exceeding the ≥ 2.0 GPA requirement to be awarded a degree at GSC.
- (c) GSC Students identify program quality through high levels of satisfaction with advisors and advisement.

Faculty Output indicators include (a) number of terminally degreed faculty, (b) peer-reviewed publications, (c) professional growth and development, and (d) faculty presentations at Academic Conferences.

- (a) Ninety-four of the BA INDS full-time faculty hold terminal degrees.
- (b) The BA INDS full-time faculty demonstrated their extensive engagement in the discipline and professional growth opportunities with 10 peer-reviewed publications, 62 academic conference presentations, 20 papers submitted, 45 articles and chapters reviewed.
- (c) All BA INDS Faculty engaged in professional growth and development, with over 957 professional development workshops and continuing education events.
- (d) BA INDS Faculty delivered 62 presentations at academic conferences, evidence of a faculty engaged and involved in their discipline.

PROGRAM VIABILITY

Student Numbers

Overall Credit Hours at Entrance

Student Numbers - Overall Credit Hours at Program Declaration

Program Title Majr	Overall hours	2019 - 2020	2020 - 2021	2021 - 2022	2022 - 2023	2023 - 2024

BA - Intdisp. Studies Public Service	31-60 Hours			1		
	61-90 Hours		1		2	1
	91-120 Hours		1	2		
	121 or More Hours			2	1	1

Cumulative overall hours earned (including Transfer credit) at the beginning of the term the student declared the major.

NOTE: This table includes all students for AY and not just those declaring major during that AY. There can be duplication across AYs.

The data indicated that the BA INDS program primarily serves transfer and non-traditional students who enter the program with a substantial number of previously earned credits. Across all concentrations and academic years, relatively few students declare the major with fewer than 30 credit hours, while the majority enter with 61 or more credits. The Creative Industry Arts concentration shows the smallest number of students overall, with declarations occurring almost exclusively in the 61–90 credit hour range. In the BA INDS Management concentration, declarations are heavily concentrated among students with 121 or more credit hours. Overall, the data demonstrates that the BA INDS program functions primarily as an upper-division and degree-completion pathway, rather than an entry-level major for first-year students.

Faculty Workload

Number of Credit Hours Taught in the Program

Number of Credit Hours Taught in the Program

Program Title	2020	2021	2022	2023	2024
BA - Intdisp. Studies Comms. and Organization	5,073	4,917	4,356	4,335	3,969
BA - Intdisp. Studies Creative Industry Arts	1,086	1,341	1,239	1,023	1,236
BA - Intdisp. Studies Management	8,634	7,893	6,948	7,227	6,882
BA - Intdisp. Studies Public Services	7,170	7,020	6,267	6,624	5,925

From 2020 to 2024, the BA INDS programs experienced varied shifts in credit hour delivery, reflecting broader trends in student demand and program vitality. The Communications and Organization track saw a steady decline, dropping 22% from 5,073 to 3,969 credit hours, suggesting waning enrollment or reduced course offerings. Management and Public Services also declined by 20% and 17% respectively, with both showing a brief uptick in 2023 before continuing downward—potentially indicating temporary recovery efforts or external influences such as market demand. In contrast, the Creative Industry Arts program demonstrated resilience and growth, increasing 14% over the five-year span despite fluctuations, and ending 2024 with more credit hours than it began with.

Recommendations:

1. Evaluate the reason for a decrease in credit hours taught in the Communications and Organization, Management, and Public Services tracks.
2. Explore factors that led to the increase in credit hours taught in the Creative Industry Arts track.
3. Consider certificates or micro-credentials to improve program enrollment.
4. Monitor enrollment and credit hour trends annually to detect early signs of decline.
5. Benchmark against peer institutions to identify competitive gaps or emerging opportunities.

Comprehensive Program Review: Bachelor of Arts Interdisciplinary Studies

Brian Web	27	27	24	18	30
Ed Whitelock	27	24	26	12	24
Marwan Zabdawi	N/A	N/A	32	29	34
Overall Program	736	733	787	877	914

The standard faculty workload, as defined in the Faculty Handbook, is 12/12, or 24 credit hours per academic year. Beginning in AY 2022–2023, Academic Affairs increased the standard workload to 30 credit hours per academic year (15/15). Throughout the review period, faculty teaching in the BA INDS program, on average, remained at or slightly below the required standard workload for GCS. Variations above or below the standard workload were observed among individual faculty and may be attributed to faculty transitions into leadership roles or the assumption of additional instructional responsibilities to ensure adequate staffing of course offerings. Over the five-year review period, the overall instructional workload for the program increased from 736 hours to 914 hours, representing a 24% increase.

Number of Faculty Supporting the Degree Program (within and outside the academic unit)

Number of Faculty Supporting Program Within/Outside Department

Department Group	Program Title Majr	2020	2021	2022	2023	2024
within Program	BA - Intdisp. Studies Comms. and Organization	2	2	2	1	1
	BA - Intdisp. Studies Management	4	4	4	3	3
	BA - Intdisp. Studies Public Service	6	7	5	9	12
	Total	7	8	6	9	12
outside of Program	BA - Intdisp. Studies Comms. and Organization	20	24	22	23	21
	BA - Intdisp. Studies Creative Industry Arts	6	10	9	7	8
	BA - Intdisp. Studies Management	21	22	19	20	18
	BA - Intdisp. Studies Public Service	18	17	19	17	15
	Total	39	40	40	36	31

The data from the review period shows that the BA INDS program relies heavily on faculty support from outside the academic unit, with internal faculty representing a comparatively small portion of total instructional support across all review years. Within the program, the number of faculty supporting BA INDS fluctuated over the review period, increasing from 7 faculty in 2020 to 12 faculty in 2024. This growth is largely attributable to expanded internal support for the Public Service concentration, which increased from 6 faculty in 2020 to 12 faculty in 2024. In contrast, internal faculty support for Communications and Organization declined from 2 faculty in 2020–2022 to 1 faculty in both 2023 and 2024, while Management saw a modest decrease from 4 faculty in earlier years to 3 faculty in 2023–2024. Faculty support from outside the program remained consistently high but declined overall, decreasing from 39 faculty in 2020 to 31 faculty in 2024. The largest reductions occurred in the Communications and Organization and Management concentrations, suggesting either fewer cross-listed offerings or reduced availability of external faculty over time. Despite these decreases, outside-of-program faculty continue to represent the majority of instructional support for all concentrations.

Overall, the data indicate a shift toward greater internal faculty involvement, particularly within the Public Service concentration, alongside a gradual reduction in reliance on external faculty. While this trend may strengthen program cohesion and oversight, the continued dependence on outside faculty underscores the importance of sustained interdepartmental collaboration to ensure curriculum stability, course availability, and timely student progression.

Number and Percentage of classes taught by Full-time and Part-time Faculty.
Administrative faculty such as Department Heads and Deans are included in the Part-time measures.

NOTE: If "team teaching" is utilized, Full-time Count plus Part-time Count will be greater than Total Count and Full-time% plus Part-time% will be greater than 100%.

Across the review period, a greater proportion of BA INDS courses were taught by part-time faculty compared to full-time faculty. The **Creative Arts** track was the only BA INDS track in which full-time faculty consistently taught the majority of courses (64.38%), with the exception of 2021, when part-time faculty accounted for 52.4% of course instruction and full-time faculty accounted for 47.6%. Over the five-year review period, the number of full-time faculty teaching in the BA INDS program steadily increased. By 2024, full-time faculty were teaching a higher percentage of courses than part-time faculty across all program tracks.

Recommendations:

- 1. Monitor faculty staffing trends annually.
- 2. Increase full-time faculty participation.
- 3. Strengthen integration, training, and support for part-time faculty.

Since the BA INDS program draws faculty from multiple schools, student advising responsibilities are distributed among faculty within each respective school.

Program Viability Narrative

Program viability is viewed as the ability of the current system to maintain a separate existence, to ensure sustainability and consistency. Viability requires effectiveness along with critical resources for programs to generate students, capital, and other resources for the institution. The BA INDS program primarily serves transfer and non-traditional students, with the majority entering the program with 61 or more earned credit hours. Few students declare the major at the lower-division level, confirming the program's role as an upper-division, degree-completion pathway rather than an entry-level major. Enrollment patterns across concentrations further support this function, with Management and Creative Industry Arts students declaring the major later in their academic careers.

From 2020 to 2024, credit hour production varied by concentration, reflecting shifting student demand. While Communications and Organization, Management, and Public Services experienced moderate declines, the Creative Industry Arts concentration demonstrated resilience and modest growth. Despite these fluctuations, overall instructional workload increased by 24% over the five-year period, indicating sustained program activity and instructional demand.

Faculty support for BA INDS relies on a combination of internal and external contributors, with a gradual shift toward increased internal faculty involvement—particularly within the Public Service concentration—and a reduced reliance on external faculty. Although part-time faculty taught a greater proportion of courses across much of the review period, full-time faculty participation increased steadily, and by 2024 full-time faculty taught a higher percentage of courses across all tracks. Faculty workload levels remained consistent with institutional standards, supporting instructional sustainability.

Advising BA INDS students follows a decentralized model aligned with the program’s interdisciplinary structure, with advising responsibilities shared among faculty across participating schools. Collectively, the data demonstrate that the BA INDS program remains a viable and flexible degree-completion option that responds to the needs of non-traditional and transfer students while maintaining instructional capacity and faculty support.

Recommendations:

1. Continue promoting BA INDS as a flexible, upper-division degree-completion option through targeted recruitment of transfer students, adult learners, and students seeking individualized academic pathways.
2. Conduct a focused review of concentrations experiencing sustained credit hour declines to determine whether curricular updates, consolidation, or rebranding are needed to align with student demand and workforce trends.
3. Increase full-time faculty engagement within the program.
4. Monitor faculty workload and sustainability to align with student enrollment.

Program Productivity
Student Graduation Statistics

Student Time to Degree

Student Graduation Statistics - Time to Degree

	Total													1	100.0%	1	100.0%								

Time to Degree based on first-term of enrollment at GSC.
Includes students known to Institutional Research as First-time Freshmen (Non-Transfer) or First-time Transfer (Transfer)

The number of graduates over the five-year review period is too small (4 graduates) to draw conclusions. 50 percent of graduates complete the program in two years or less, 25 percent complete in 3 – 4 years, and 25 percent take more than 4 years to graduation. It appears that only the Communications, Management, and Public Service concentrations are producing graduates. It is noted that while the BA INDS program may not require additional Faculty or financial resources to deliver the program, it does require specialized advisement of students and faculty time and resources to maintain and assess the program.

Baccalaureate Level Graduation Numbers (for Review of Baccalaureate Level Programs)

Baccalaureate Level Graduation Numbers

Program Title MAJR	2023		2024	
	Count	Avg. Years to Grad	Count	Avg. Years to Grad
BA - Intdisp. Studies Comms. and Organization	2	2.7		
Total	2	2.7		
BA - Intdisp. Studies Management	1	1.3		
Total	1	1.3		
BA - Intdisp. Studies Public Service			1	2.7
Total			1	2.7

Time to Degree based on first-term of enrollment at GSC.

This data does not match data presented in previous table, which reported one student graduating in “more than 4 years.” Recommend a review of the data output. Generally, most students graduate from this degree-completion program in 2–3 years, pointing to the mission of the program to help student with multiple and unrelated courses to follow a plan to graduation.

Student Retention (Data Source A)

Returned the Subsequent Term

Student Retention - Returning Students

Program Title MAJR	2020 - 2021				2021 - 2022				2022 - 2023				2023 - 2024			
	Total students	Return	Grad	%	Total students	Return	Grad	%	Total students	Return	Grad	%	Total students	Return	Grad	%
BA - Intdisp. Studies Comms. and Organization					10	7	1	80.0%	6	3		50.0%	2			0.0%
BA - Intdisp. Studies Creative Industry Arts									1	1		100.0%	1			0.0%
BA - Intdisp. Studies Management	1			0.0%	1	1		100.0%	2	1		50.0%	1			0.0%
BA - Intdisp. Studies Public Service	2	1		50.0%	4	2		50.0%	1	1		100.0%				

* Academic year - AY of first semester (Summer, Fall or Spring) student has declared major for the program under review.

* Returned - Returned the subsequent Fall term - student enrolled Fall term subsequent to his/her Cohort Term

* Graduated- Graduate prior to subsequent Fall term - student was awarded degree in program prior to the Fall term subsequent to his/her Cohort Term

* % - Percentage retained/graduated - total number of students retained and graduated divided by total students in a Cohort of the Academic Year

Total enrollments are so small that analysis of student retention rates is difficult to apply to broader populations. Students in the Communications concentration (10, 6, 2) outnumber students in Industrial Arts, Management, and Public Service concentrations. Communication students' retention averaged 43.3 percent in the three years the concentration was offered. The average retention rate for students in the Creative Industrial Arts program was 50 percent over the two years the concentration was offered. Average retention for Management concentration was 37.5 percent over the four years offered. Average retention for Public Service concentration students was 66.7 percent over the three years offered. The overall average retention rate of BA INDS students is 49.375.

Program Productivity Narrative

The [*US Bureau of Labor Statistics*](#) defined *productivity* as “a measure of economic performance that compares the amount of goods and services produced with the amount of inputs used to produce those goods and services.” In analyzing productivity, the focus is on outputs: enrollment, retention, and student completion data. Ideally, productivity improves each year, as this is a key variable in the College’s success, profitability, and ability to thrive. In improving productivity, space and resources are made available for growth and expansion. While students are progressing and graduating in the BA INDS program, enrollments are low and the number of concentrations too broad. With only four graduates in the years under review and an average retention rate of 49.4, it appears program outcomes are too little for the Faculty time and resources invested.

While it is understood that no additional Faculty and no additional investments are required to deliver the program, Faculty time and resources are expended in specialized advisement, program management, and assessment. It is recommended that if the BA INDS program continues, that Faculty consider consolidating the Concentrations into one, where students complete the BA INDS without specific Concentrations or courses required for that Concentration.

COMPREHENSIVE PROGRAM REVIEW: AY 2020-2024

Project Team: Dr. Ed Whitelock; Dr. Barry Kicklighter; Dr. Brenda Johnson, PROF Caitlin Chapman

Academic Program Name: Bachelor of Arts Interdisciplinary Studies; Bachelor of Arts Interdisciplinary Studies Communication and Organizations; Bachelor of Arts Interdisciplinary Studies Creative Industry Arts; Bachelor of Arts Interdisciplinary Studies Management; and Bachelor of Arts Interdisciplinary Studies Public Service

CIP Code: 30.0000

College or School and Department: School of Business & Public Service (AY 2025-26)

Appendix E: Library Resources Complete for English and History

Dorothy W. Hightower Collaborative Learning Center and Library Resources

Mission

The mission of the Dorothy W. Hightower Collaborative Learning Center and Library is to support the teaching, learning, and research needs of the college community by providing a knowledgeable staff, resources, tools, information, learning spaces, and instruction in evaluative and lifelong learning skills.

Library Vision and Primary Function

With an extensive renovation slated for completion by Spring 2016, the Dorothy W. Hightower Collaborative Learning Center and Library is a welcoming environment offering and encouraging flexible, open, and collaborative learning spaces as well as individual study spaces to meet the needs of the 21st Century student learner. The library provides and maintains a full range of print, non-print, and electronic resources; technology; and services to support teaching and learning at Gordon State College. Additionally, the library promotes awareness, understanding, and the use of these resources through research skills courses, library orientation classes, individualized instruction, online tutorials, and hands-on research assistance for Gordon State students located in Barnesville, Griffin, McDonough and distance education learners. Gordon State College students, faculty, and staff, as well as the surrounding community, are invited to use Hightower Library to pursue academic and intellectual interests.

The primary functions of the library are:

1. To provide physical and electronic access to the necessary informational and instructional resources and technologies which facilitate teaching and nurture learning via logical organization of materials and services, enabling information to be conveniently located, accessed, manipulated, and created.
2. To provide an expert staff, whose value as an informational source equals that of our print and electronic resources, and who are committed to aiding the student, faculty, and staff in the most effective manner.

3. To provide for a growing student body and faculty an attractive yet functional facility which respects the tradition of individual study while simultaneously encouraging the spirit of collaborative engagement, and which allows students, faculty, and staff to achieve their academic goals through research, education, facilitation, presentations, stimulation, and innovation.

Research Assistance

Research assistance is available by walk-up face-to-face assistance, phone, email, and online via PowerPoint and video tutorials, as well as LibGuides (subject guides). Additionally, Gordon State students are assigned a personal librarian based on their majors or home department. Students are able to schedule consultation appointments with their personal librarian to seek help with their research assignments. Faculty/staff may also take advantage of the Personal Librarian program and work with librarians to create/revise class assignments, provide library instruction classes, conduct research for professional development or scholarly activities, or recommend library materials to support the curriculum offered at Gordon State.

The Personal Librarian for is [NAME].

Facility and Online Description

The library supports an on-site, physical collection consisting of 108,000 volumes, 7,932 bound periodicals, 8,000 current periodical subscriptions, 10,394 microfilm units, and 36,000 electronic books. In addition to books and periodicals, the library houses a growing collection of audiovisual materials for use in the library or for classroom use. Patrons have access, in GALILEO (**GeorgiA Library LEarning Online**) to more than 105,000 online serials and core academic journals with over 93,221 of these full-texts and 325 databases. Equipment is available in the library for viewing these materials.

Hightower Library, a two-story building, named for Dorothy Watson Hightower, was built in 1978. Reference materials, bound periodicals, microfilm, the Georgia Collection, video collection, and LP collection were housed on the first floor until renovation began in July 2015. The circulating collection, study rooms, and AV equipment were located on the second floor. Hightower Library provided space for quiet study and collaborative group work (6 study rooms), 27 computers, 24 laptops, 2 printers, wireless access, 3 microfilm readers, and 2 photocopiers.

During the renovation, students may access computers and quiet study spaces located in the Instructional Complex Building, Academic Hall, Russell Hall, Nursing and Allied Health Sciences Building, and Smith Hall as well as connect remotely using their personal devices or utilize technology at one of the partner libraries (HCPL or SCTC). However, after the renovation has been completed [2], the library will be a state of the art learning facility for the 21st century learner which will house approximately thirty percent of the reference materials, bound periodicals, microfilm collection, and circulating collection while the remaining library materials are located via Guillebeau Hall yet accessible upon electronic request. The renovated building will house an increased number of (1) general student seating, (2) computers, (3) individual and group study rooms for collaborative work and individual quiet study, (4) Presentation Practice Room, (5) Assistive Technology Room, (6) two instructional classrooms, (7) wireless access, (8) microfilm readers, (9) printing, (10) and self-check-out machine.

Guillebeau Hall was built in 1934 as Memorial Gymnasium to honor the men who fought in World War I. Memorial Gymnasium was a Public Works Administration project. The building was remodeled in 1999 and converted to a co-ed honors hall that housed 36 students. The building was renamed in honor of Colonel Joseph Edwin Guillebeau, a former professor and President of Gordon Military College. More recently, the main floor of

Guillebeau Hall was renovated during Spring and Summer semesters 2015 to accommodate the library repository. It houses the majority of the library's collection as well as the Archives Collection. Archives consist of materials donated to the college related to the history of the (1) college, (2) Lamar County, (3) City of Barnesville, (4) alumni memorabilia, and (5) well-known alumni. Students and community members wanting to access these materials may do so by scheduling an appointment with the Reference and Instruction Librarian who also serves as the college's Archivist. Library users may access materials in Guillebeau Monday through Friday from 8AM until 5PM upon scheduling an appointment with a librarian.

BA INST Resources Available in Gordon State College Hightower Library:

Format	Number of Titles	Comments
Books	41,949	
Electronic Books	Over 1 million	
Print/Microfilm Journals	754	This counts only unique titles.
Electronic Journals	Over 8,000	Total count may include some duplications.
